

LowePro Reporter Lite 200 Camera Bag

Model : ReporterLite 200

Manufacturer : LowePro

As expected, the LowePro Reporter Lite 200

lives up to the reputation LowePro has made for itself in offering the best professional camera bags available. This bag was designed with reporters

and professionals who still need to be fast at a moment's notice. One of the coolest functions of this bag is the zippered opening on top

of the bag (see photo) that allows access to camera gear in seconds, without opening the entire bag and risking dropping equipment or

contaminating your gear bag with your surroundings. The padded liner is removeable in one piece, and of course you can re-arrange the

velcro padding inserts to suit your gear and set-up perfectly. Great for videographers, and looks stylish in a way that it can be used in any

environment. It is no secret in the professional photography world that LowePro bags are bags you can count on to protect your gear and offer the

utmost functionality.

"I have 3 LowPro bags; the Nova 5, Topload Zoom AW, and the Reporter Lite 200. The "Reporter" is the

one that gets the most use and is considered my everyday bag. I love the easy access and the slidness of the design, I never worry about my

complete Nikon 8700 kit, which fits perfectly in this bag."
